PUNK-FUCKIN-ROCK

ICE PICK! PAIN!

Punk Rock Worries Reds

The Communist Party daily in Czechoslovakia, *Rude Pravo,* is demanding strict control of groups that play punk rock music. The newspaper accuses them of perverting Czech youth into "a philosophy of nihilism, waste and a cynical approach to life."

Its editors are outraged not only by the names these groups have given themselves—The Bastards, Yellow Dog, and Hard Currency Allowance—but also by the titles and lyrics of their songs. Two titles they find particularly offensive are "Baby, Baby, Give Me a Cadillac" and "Scram, S___head, Our Lord Is King and His Name Is Heroin."

The newspaper says punk rock musicians "propagate drugs, vulgarize love relationships and express opinions that are totally foreign to us." It describes as Western and decadent such lyrics as, "She's got a dirty back, does not drink or smoke or use salt, but she likes it."

A few years ago, Czech authorities jailed two underground music groups, DG 307 and Plastic People of the Universe, for playing "subversive music."

SEX GOD DOG SIN

RELIGEON

recently when i was in california i saw alot of billboards of someone sitting in a room crying with a message under it saying "god cares" there were also t.v. commercials with kids around the ages of 8 and 9 saying the ten comandments i personaly think this is bad because if we wanted to learn that shit we could go to church.religeon is ok for somepeople like people in the hospital that belive in god so much that it actualy keeps them alive.but its totally different when things like jerry falwell,eldridge cleaver,andrev.sun myung moon who come around recruiting people for there armys,and also to make millions of dollars. i think these people compare with adolph hitler, have you ever seen jerry falwell on t.v how he yells about how god will forgive you if you become a beliver but when you become a beliver you must follow gods 10 commandments and gods laws.hitler once said"your child already belongs to us "well even adults belong to reigeon.AMEN(ha-ha) Rev. it has come to my attention that the fat rich pigs in power of"our" country have been putting a budget on how much grain and other natural food resourses that states can produce.i think this is really bad,there are millions of people in america alone that go without decent food every day now if the government wasnt so capitalist all those people could be fed.did you know that the money needed to give decent food,water,housing ,education,and health has been estimated at 17 billion dollars a year.thats alot of money but it is about as much as the world spends on milatary arms every 2 weeks! wake up!!!

Opening bands:do <u>you</u> watch? by Steve Gnarly

Why do a lot of people ignore opening bands? Is it just because they only want to see the "Big-name" band,and tell their friends they did? Is it because they just dont care about younger,new bands? Or would they rather just socialize outside,and pretend they dont know the first band(s) are playing? Whatever the excuse is,I think that they should stop and watch these bands,who put a lot of effort and time into performing. Opening for one of these "Big" bands just might be the break these "smaller" bands need to finally be recognized,but nothing will come of it if nobody is there to watch. I,myself ,having been in a few opening bands,know how it feels to play to an empty house. It kind of puts a damper on the spirit of the evening. If any of this has soaken in,struck a nerve,or raised any questions,let us know. Either way,watch the bands. It will make it more enjoyable for everyone.

el salvador:editorial

the amerikan government denies sending troops to south america so instead they send advisors wich advise malitia and government armies on how to torture, and how to blow things up,and how to do many more things.i saw a documentary on chile and it showed american advisors electrocuting farmers(women and men)to show chiles government army how to interrogate and torture,they electrocuted womens brests and other nerve sensative areas and they electrocuted mens testicals, eyes,and other parts.there only crime was walking down the street.this is just one incident inwich advisors have interviend. america is unofficially at war with 4 contries grenada,lebanon,el salvador, nicaragua.we have advisors in many more. we go into these places as peace-keepers were not keeping the peace if anything where deystroying it.but realy we go into these contries to protect investments,not to stop communism or protect american citizens.i say american soldiers should come home,now.and we should kill the c.i.a for killing innocent lives...

X -howd you get the name A.H.C.?

A.H.C-danny gets into all the bands across america and he makes tapes (comp's)withbands from all over he titles these a.h.c.we also wrote a song called a.h.c. its about scenes,bands,and kids across the country it compliments whos into it.well we wanted to change our name and dannys brother said why not A.H.C. we said no thats lame,but it stuck in our heads to much so we went for it,sure we get shit for it but any one who reads our interviews would realize we are all a.h.c.were not saying where the only band that plays h.c.if we where the name wouldnt exist cause we got the name from all the other bands and kids.
